Dear Sir/Madam,  
Good Day,

I take this opportunity to give our feedback for SSM School (MLC) visit dt 19-01-19 with my family.

"First Impression"

We could feel the discipline the moment we board the bus from 'O' point, To be precise well organized and there were enough staffs to guide us to different locations. (MLC, Classroom, etc..)

Bus drivers are friendly and they ensured all visitors are seated before bus take-off which is a good practice. (not usual in India but I observed in Europe/Japan)

"MLC-Park Visit"

After Comfortable short school bus trip we reached MLC, My son was excited and started enjoying with their grandparents and the facilities are really good, I hope SSM management have plan for continuous upgradation of these facilities, To be honest we recollected our School Day's where we never had this opportunity 😊, at least my son is lucky to have it 😊

"Class Room Visit"

Class room (JM2-E23) is clean and ventilated nicely, Teachers welcomed us with smile and to be specific Janani Ma'am & Rama Ma'am are very friendly/supportive, Later my son demonstrated different Montessori work and we can see many of his learning's are good and we understood class room has enough facilities.

To conclude we felt SSM school is "Family away from Home" and my son is on safer hands.

Thank you for your outstanding contribution to our society by developing wonderful students 😊

Request to SSM Management : Please consider to provide group photo every year.

Best Regards,  
Bhavankumar & Swathy Lakshmi

Respected Sir,

I am INSUVAI (Sister to Sri IRAIANBU). I just want to share a few words with you. I got admission for my grand daughter R.RAKSHITHA with much ado in your school. I was bent on giving that education by which character is formed, strength of mind is increased, intellect is expanded and by which one can stand on one's feet and your school fulfils this sir.

The ambience of your school will not dim diamonds. My grand daughter loves going to school. We used to struggle in feeding her and because of the training at school we are much relieved from the arduous task of feeding her. She asks us to "bend and eat" and we eat following it at home. All parents owe a lot to you for this sir. If you just help in creating an atmosphere the rest will be done by the atmosphere itself. Even the wingless dry leaves rise high like birds when powerful storm comes. This is what I see at S.S.M. We salute you sir, for your great efforts in shaping the tiny tots and we are gifted to have it near our home at chromepet.  
Thanks  
INSUVAI
